HELP WITH COVERAGE AND DELIVERY

Coverage Verification

We can check with a patient's insurance plan to help the patient understand their coverage for Jakafi and any out-of-pocket costs they're responsible for paying.

Insurance Assistance

We can help patients understand more about how their insurance plan works and can provide information about prior authorization steps that some plans require before their coverage for Jakafi can be approved. We can also offer guidance, if needed, on appealing insurance denials or coverage restrictions.

Delivery Coordination

We can help identify a specialty pharmacy within the Incyte network that accepts the patient's insurance, then send the Jakafi prescription and any copay assistance information to it directly. The specialty pharmacy then calls the patient to schedule shipments of their Jakafi.
